

# Date Claimer!

27-28 March 2020

ASRVA has begun planning The Gathering. We hope that those who attend are interested in strengthening their application of SRV and will be inspired and enthused to use SRV. We will be reinforcing the spirit of a Community of Practice through a mixture of speakers, discussion and activities. There will be opportunities for reflection and critical thinking.

There will also be opportunities for people to meet and work collaboratively.

We hope to see you there!

One person's conference is another person's gathering. What's important is that there'll be opportunities to engage with SRV ideas and meet others interested in applying SRV. Two days of engagement, information and insights.  
Fun is expected but optional!

The presentations will be Australian-made and grown, though the work of Dr Wolf Wolfensberger, Susan Thomas, and colleagues is respectfully acknowledged and appreciated, and form the basis for discussions.

We are delighted to partner with Values in Action Association (ViAA), the Brisbane SRV group, who will be responsible for all of the administrative arrangements - [viaainc@gmail.com](mailto:viaainc@gmail.com)
